Experience Maryland's Jewish History

At JMM, we tell stories of Jewish Maryland.

Our exhibits, collections, and programs share stories that will make students question, laugh, think, and feel deeply – no matter who they are – because it is stories that make us human and connect us as a community of learners.

Immerse your students in an interactive learning experience igniting their curiosity and fostering personal connections.

You can work directly with our education team to build an experience for your students that will enrich their classroom learning. Programs can take place at either the Museum or your school – or both!

All our programs are developed in connection with Maryland College and Career Readiness Standards.
