Frog Folding

Frogs were the second plague sent down on the Egyptians to try to convince Pharaoh not to keep the Jews in slavery. Remember this part of the Passover story by creating origami frogs using recycled paper.

What you will need:

- Newspaper or magazine pages cut into a rectangle
- Scissors
- Green paint or sharpies (optional)

What to do:

- If you would like, paint or color your paper green. Make sure it dries before you start folding.
- Follow the step by step guide from origami-fun, found on the next page, for how to fold your paper.

Bonus Challenge: Bring the frogs out during the plague section of the Seder and try making them jump by pressing down on the fold above the back legs. See who can make their frog jump the furthest.
1. Start with a rectangular sheet of paper, white side up. Fold it in half, and open out again.

2. Fold both top corners to the opposite edge of the paper. Your creases should look like this.

3. Where the diagonal creases meet in the middle, fold the paper backwards, crease well and open.

4. Hold the paper at the sides, bring these points down to the centre line, then flatten. The creases should do most of the work here!

5. Fold the uppermost triangles up to the top point.

6. Fold sides in to the centre line.

7. Fold bottom of model upwards so the end sits in the centre of the top diamond.

8. Now fold the same part downwards in half.

9. Turn over and your frog is finished! To make him jump, press down on his back as shown.
